This presentation (the “Presentation”) has been prepared by Trainline plc (the “Company” and, together with its subsidiaries, the “Group”). For the purposes of this notice, “Presentation” means this document, its contents or any part of it, any oral presentation, any question or answer session and any written or oral material discussed or distributed before, during or after the Presentation meeting. This information, which does not purport to be comprehensive, has not been verified by or on behalf of the Group. This Presentation is for informational purposes only and does not constitute an offer or invitation for the sale or purchase of securities or any businesses or assets described in it, nor should any recipients construe the Presentation as legal, tax, regulatory, or financial or accounting advice and are urged to consult with their own advisers in relation to such matters. Nothing herein shall be taken as constituting investment advice and it is not intended to provide, and must not be taken as, the basis of any decision and should not be considered as a recommendation to acquire any securities of the Group.

No representations or warranties, express or implied, are made as to, and no reliance should be placed on, the accuracy, fairness or completeness of the information presented or contained in this Presentation. This Presentation includes statements that are, or may be deemed to be, “forward looking statements”. These forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond the Group’s control. “Forward-looking statements” are sometimes identified by the use of forward-looking terminology, including the terms “believes”, “estimates”, “aims” “anticipates”, “expects”, “intends”, “plans”, “predicts”, “may”, “will”, “could”, “shall”, “risk”, “targets”, forecasts”, “should”, “guidance”, “continues”, “assumes” or “positioned” or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places and include, but are not limited to, statements regarding the Group’s intentions, beliefs or current expectations concerning, amongst other things, results of operations, financial condition, liquidity, prospects, growth, strategies and dividend policy of the Group and the industry in which it operates. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. These statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant business, economic and competitive uncertainties and contingencies. As such, no assurance can be given that such future results, including guidance provided by the Group, will be achieved; actual events or results may differ materially as a result of risks and uncertainties facing the Group. Such risks and uncertainties could cause actual results to vary materially from the future results indicated, expressed, or implied in such forward-looking statements. Forward-looking statements are not guarantees of future performance and the actual results of operations, financial condition and liquidity, and the development of the industry in which the Group operates, may differ materially from those made in or suggested by the forward-looking statements set out in this Presentation. Past performance of the Group cannot be relied on as a guide to future performance. Forward-looking statements speak only as at the date of this Presentation and the Company and its directors, officers, employees, agents, affiliates and advisers expressly disclaim any obligations or undertaking to release any update of, or revisions to, any forward-looking statements in this Presentation. To the extent available, the industry and market data contained in this Presentation has come from third party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. In addition, certain of the industry and market data contained in this Presentation come from the Company's own internal research and estimates based on the knowledge and experience of the Company's management in the market in which the Company operates. While the Company believes that such research and estimates are reasonable and reliable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change without notice. Accordingly, undue reliance should not be placed on any of the industry or market data contained in this Presentation.
We are the Europe’s leading independent rail platform, in an estimated market of around €60bn.¹

We enable millions of travellers to seamlessly search, book and manage their journeys through our highly rated Trainline website, mobile app and B2B partner channels.

This presentation provides introductory information for prospective investors to Trainline.

How do we make money?

Case Study: FY 2023 UK Consumer revenue take rate (revenue as % of net ticket sales)

- **Base commissions**: 5.0%
  - Average commissions on net ticket sales paid by rail carriers

- **Other revenues**: 3.6%
  - Revenues from booking/service fees, multi-currency services, advertising and other ancillary services

- **Internal transaction fee to access Platform One**: -2.5%
  - Contra revenue charge payable to Trainline Solutions; nil impact to Group revenue (N.B. International Consumer internal transaction fee -1.4%)

- **Revenue take rate**: 6.1%
  - Revenue as a percentage of net ticket sales, as per Trainline’s financial accounts
Our strategic priorities for growth

**Enhance the customer experience**

- Continually improving and optimising the user experience, removing friction while offering access to unrivalled value and the widest choice.

- Using customer insights and research, personalisation, data and machine learning, we design features that enhance customers’ journeys at every stage, from planning and booking through to post sales.

**Build demand**

- Deploying our marketing playbook to drive customer acquisition and encourage more customers to choose greener modes of transport.

- We have built a strong brand in the UK, with further headroom to grow across our core European markets.

**Increase customer lifetime value**

- We want our customers to use us more frequently for more of their travel needs.

- Our enhanced product offering and broader marketing helps people make better travel choices everyday.

- This helps to drive faster growth and improves our economics, allowing us in turn to invest more in customer acquisition.

**Grow Trainline Solutions**

- Underpinned by Platform One, our single global tech platform, Trainline Solutions offers retailing solutions to carriers and distribution capabilities for travel sellers.

- We are focused on increasing demand from our existing clients while winning new clients.

- Traditionally focused on the UK, we are now breaking through into European markets.
Trainline driving market shift to digital tickets in UK

Eticket penetration in UK has more than tripled in last four years...

- FY2019: 14%
- FY2023: 43%

Eticket availability is % of UK rail journeys where an eticket can be used

- FY2019: 63%
- FY2023: 85%

On the day ticket purchases, including commuters, represent next leg of growth...

Trainline priming its commuter experience, including favourites...

Launching Quick Buy: repurchase tickets in just three clicks...
Liberalisation of European rail enabling Trainline’s market fit

- EU Fourth Railway Package mandating domestic market liberalisation
- Emerging carrier competition in Italy, Spain and France
- Increasing number of routes with 3+ carriers competing
- More fragmented markets brings more choice for the customer
- But carriers do not offer competitor inventory on their respective websites

Carrier competition provides opportunity to position Trainline as market aggregator

Map: white lines represent routes with 2 carriers; yellow lines represent routes with 3+ carriers from June 2023. SNCF discontinued cross border service between Lyon, Marseille and Barcelona, though continue to run a service between Paris, Valence, Montpellier and Barcelona, competing with Renfe’s Lyon-Barcelona cross border service.
Prioritising markets where we have strongest customer proposition

**Strongest customer proposition**

- More mature liberalised domestic markets
  - Spain
  - Italy
  - €6bn TAM

- Foreign travel
  - Global Inbound
  - Cross border
  - €4bn TAM

**Future opportunity**

- Less mature liberalised domestic markets
  - France
  - €4bn TAM
Platform One underpins our B2C businesses as well as our travel partners' online retailing.

Revised segmentation of business units – September 2022

- New segmentation enhances disclosure with improved cost allocation between business units, better reflecting the operation of the business
- Improved reporting transparency, splitting out marketing from other direct admin costs on face of segmental P&L
- Improved allocation of direct & central admin costs, enables Trainline to report adjusted EBITDA for each business unit
- Created new ‘Trainline Solutions’ business unit:
  - Absorbing UK and International TPS businesses, as well as costs to run Platform One technology stack
  - Internal fee per transaction payable by UK Consumer & International Consumer businesses to access Platform One, mirroring how B2B and TOC white label clients are charged
  - Transaction fee reflected as contra revenue to UK Consumer & International Consumer (nil impact to Group revenue)
- Adjusted the International segment, moving International TPS business to Trainline Solutions; International is now referred to as ‘International Consumer’
- Restated financials for the periods FY2020-FY2022 can be found on our investor website (published 15 Sept’ 2022)
